

# Your EMR Learning Journey

There are several key steps to support your learning journey on the EMR:

- 1** Complete your e-Learning modules on LATTE. Return to these as many times as you wish to keep your learning fresh.
- 2** Attend your face-to-face classroom sessions after completing your e-Learning.
- 3** Practise, practise, practise on the Practise Domain using the practise scripts. The Practise Domain is not a replacement for e-Learning or classroom training, it enhances them.
- 4** We have proficiency guides for you to gauge how you are doing.
- 5** And of course, Quick Reference Guides for you to reference at any time.

Practise scripts, proficiency guides and Quick Reference Guides can be found on the EMR website.
