

Save the date for Go-Live Three

Go-Live Three of the Electronic Medical Record (EMR) is just around the corner, with Casey, Moorabbin and Kingston sites kicking off from Tuesday 26 November.

We've staggered our Go-Live to ensure the transition is a success, and to give you the resources and support you need.

During Go-Live, our Clinical Transition Teams will work across the wards to transcribe patient records from paper into the EMR. For more information about this process, visit www.EMRmonashhealth.org and stay tuned for further updates.
