

# EMR Best Practice Passport - Risk Assessments and Care Plans Documentation

This Passport will provide you with a checklist of resources to review for EMR Documentation of Risk Assessments and Care Plans. Utilise the Key Workflow videos as your Primary Resource. Refer to QRG's and e-Learning videos, as listed below, for further reference.

**Note:** Prior to any documentation in the EMR, 3 points of patient ID must be checked to ensure that the correct record is accessed, and the patients' Allergy status must be reviewed.

## Nursing Documenting Principles
